

Dear Alumni:

Did you know that the State of Utah Esthetics License that you may currently have, is now **non transferable to most states?** As of 2008, Utah adopted the NIC (National Interstate Council) testing system as their esthetic licensing test. The NIC test is recognized in 40 states across America and in 10 foreign countries. Please review the attached map to see which states NIC is recognized in. The exciting news for you is the NIC test will give greater reciprocity from state to state. There are many NIC testing sites across Utah. The closest one to The Skin Institute is in Hurricane, Utah.

The NIC testing covers subjects that were not previously required on the Utah exam and the entire process can be confusing. We are excited to announce that there is help! The Skin Institute will be conducting some evening training classes to help prepare you to take the NIC test. You'll find our workshop choices will cover all of your needs.
